**Truck Companies:** 1

**Specialized Equipment:**

**Overhead Personnel:** 1

**Ambulance(s):** 0

**Water Tenders:** 0

**Utilities:** Yes

**Red Cross:** Yes

**Displaced Persons:** Yes

### CURRENT SITUATION

*(Recent updates are posted at the top of Current Situation)*

The City of Riverside Fire Department responded to a report of a structure fire in the area of Jones and Arlington. The first due Engine Company arrived and reported smoke showing from the dispatched area, but was having trouble making access. Fire crews were able to determine that the fire was actually on Gaylord and relocated to the 6800 block of Gaylord where they found a small single-story, single-family dwelling well involved. The structure was set back off of the street approximately 300 feet, and crews initially had to use ladders to scale a fence to get to the burning structure while a gate was forced open. Riverside Firefighters made an aggressive interior fire attack while simultaneously searching for trapped victims. The fire was knocked down in about 15 minutes, but the interior of the home was mostly destroyed. The fire displaced one adult, and one dog. Red Cross was called to the scene to assist the displaced adult with housing. The occupant was also issued a Save Card. There were no civilian injuries, but one firefighter sustained a minor eye injury. The cause of the fire is under investigation. The City of Riverside Fire Department urges all residents to have smoke detectors in their homes, and check them on a regular basis.
